

Innovative Solutions from FJM Security Products

ShurLok™ COMBINATION
KEY CABINET

Thank you for choosing to use the ShurLok Combination Key Cabinet to store and manage your keys. FJM Security Products develops unique solutions that grant keyless access to your home business or vehicle. For more information on any of the products below, please visit: www.fjmsecurity.com.

HitchSafe

Our newest star, the HitchSafe converts the hitch receiver on a truck or SUV into a VAULT! It holds spare keys and credit cards, as well as your driver's license or cash, making it especially useful during outdoor activities where carrying those items might be lost or are a hassle to keep on your person.

Combi-Cam

The Combi-Cam replaces any standard cam lock, delivering keyless security on any cabinet, drawer or door. Ideal for locations where many people must access one locked location, the Combi-Cam removes the hassle of keeping track of keys.

Combi-Bolt

The Combi-Bolt is a totally new product. The Combi-Bolt combines a traditional slide bolt with 10,000 possible combinations for a totally new security concept! It is great for sheds, gates, doors, cabinets and more. Go to: www.combi-bolt.com

SOBO High Security Padlocks

SOBO High Security Padlocks offer European High Security at a very affordable price. Features include Abloy style keyways, shrouded or jimmy-proof shackles & triple chrome plating.

The ShurLok Key Storage Lockbox

The ShurLok is great for contractors, realtors and home use. The ShurLok competes well with its low price point and a patented dual-combination feature, whereby it has one combination for the shackle and another combination for the key compartment.
